hydrobiologia volume 252 (1993), contents

no. 1
Special Issue: **Sediment–Water Interaction 4**
Guest Editor: **H. L. Golterman**

Foreword v

M. V. Martinova: Nitrogen and phosphor compounds in bottom sediments: mechanisms of accumulation, transformation and release 1

A. Gómez-Parra & J. M. Forja: Benthic nutrient fluxes in Cadiz Bay (S.W. Spain) 23

C. Helmer & L. Labroue: Denitrification in gravel-pit lakes 35

T. Moutin, B. Picot, M. C. Ximenes & J. Bontoux: Seasonal variations of P compounds and their concentrations in two coastal lagoons (Herault, France) 45

S. M. Nair, A. N. Balchand & P. N. K. Nambisan: Phosphate fractionation in mud bank sediments from the southwest coast of India 61

S. M. Nair & A. N. Balchand: Nearshore abundance of dissolved and sedimented forms of phosphorus 71

C.-J. de Groot & C. van Wijck: The impact of desiccation of a freshwater marsh (Garcines Nord, Camargue, France) on the sediment–water–vegetation interactions. *Part 1: The sediment chemistry* 83

C. van Wijck & C.-J. de Groot: The impact of desiccation of a freshwater marsh (Garcines Nord, Camargue, France) on the sediment–water–vegetation interactions. *Part 2: The submerged macrophyte vegetation* 95

C.-J. de Groot & A. Fabre: The impact of desiccation of a freshwater marsh (Garcines Nord, Camargue, France) on the sediment–water–vegetation interactions. *Part 3: The fractional composition and the phosphate adsorption characteristics of the sediment* 105

C.-J. de Groot & H. L. Golterman: On the presence of organic phosphate in some Camargue sediments: evidence for the importance of phytate 117

no. 2

T. J. Gardner: Grazing and the distribution of sediment particle sizes in artificial stream systems 127

D. J. Hornbach, T. Deneka, M. Hu, B. S. Payne & A. C. Miller: Temporal and spatial variability in midge assemblages from a backwater lake in Pool 2, Mississippi River 133

G. M. van Dijk: Dynamics and attenuation characteristics of periphyton upon artificial substratum under various light conditions and some additional observations on periphyton upon *Potamogeton pectinatus* L. 143

B. J. Downes & J. Jordan: Effects of stone topography on abundance of net-building caddisfly larvae and arthropod diversity in an upland stream 163

J. Santamarina: Feeding ecology of a vertebrate assemblage inhabiting a stream of NW Spain (Riobo; Ulla basin) 175

no. 3

X. Zhang, M H. Daro & M. L. M. Tackx: Comparison of Coulter Counter and ^{14}C measurements of *Acartia tonsa* (Copepoda, Calanoida) grazing on *Chlamydomonas sp.* (Volvocales) 193

W. Reisser, S. Grein & C. Krambeck: Extracellular DNA in aquatic ecosystems may in part be due to phycovirus activity 199
I. Hawes: Photosynthesis in thick cyanobacterial films: a comparison of annual and perennial antarctic mat communities 203
S. E. Goudreau, R. J. Neves & R. J. Sheehan: Effects of wastewater treatment plant effluents on freshwater mollusks in the upper Clinch River, Virginia, USA 211
S. Santiago, R. L. Thomas, G. Larbaigt, D. Rossel, M. A. Echeverria, J. Tarradellas, J. L. Loizeau, L. McCarthy, C. I. Mayfield & C. Corvi: Comparative ecotoxicity of suspended sediment in the lower Rhone River using algal fractionation, Microtox® and *Daphnia magna* bioassays 231
N. Jeanne, A. C. Dazy & A. Moreau: Cadmium interactions with ATPase activity in the euryhaline alga *Dunaliella bioculata* 245
